REVIEW

OF THE CHICAGO DENTAL SOCIETY

September 15, 1942

Volume 4 • Number 6

A black and white illustration of a woman with styled hair, wearing a dark, short-sleeved dress, standing in a tiled bathroom. She is holding a bottle of CO-RE-GA adhesive in her right hand and a denture in her left. In the background, there is a sink with two faucets and a mirror on the wall. The mirror reflects a scene with two people, one playing a piano and another standing nearby.

WILSON'S
CO-RE-GA
 (POWDERED)

THE PERFECT ADHESIVE FOR DENTURES

DOCTOR!
*This Coupon
 is for your
 Exclusive Use*

DAILY APPLICATION

CO-RE-GA is especially indicated in correcting the fit lost while resorption is taking place. It creates positive adhesion between the basal seat and the supporting jaw, thereby reestablishing denture balance.

CO-RE-GA is not advertised to the public

Life-like Dentures —for patients of *every* race!

A patient's color and complexion need never be a bar to natural appearance in denture materials. Translucent and delicately mottled, *Lucitone* is as fair as the Fifteenth Amendment (racial freedom): it allows the natural coloration of any gum tissue to show through.

The result is a life-like appearance that could never be obtained with a denture material of a "flat pink" color.

For modern, undetectable dentures, specify *Lucitone* —the denture material made by Du Pont exclusively for dentistry, and distributed by Caulk.

S. S. White BASE PLATES

Tough ★ Strong ★ Durable

S. S. White TRIAL BASE (Pink)

For making rigid trial base plates

It is by far the most pleasing material ever developed for base plates. It saves time, has a cleaner, more attractive appearance; gives accurate adaptation, and is very strong.

Very little finger manipulation required to adapt Trial Base to the model; under the warmth of a gentle flame it almost adapts itself to the model.

Trial Base doesn't warp, pit, streak, char, or become rough. It trims nicely under a knife, file or hot spatula, and retains its beautiful pink color and glossy surface after adaptation.

Upper and lower forms, 16 gage (.051")
—13 gage (.072").

S. S. White "IDEAL" BASE PLATE Trade Mark Reg. in U.S. Pat. Off. and Elsewhere (Brown)

A shellac compound for rigid trial plates. Brown color.

The large size of "Ideal" Base Plates will accommodate all cases. The denture form of the plates in uppers and lowers eliminates unnecessary trimming. It is as plastic as wax when softened and permits easy adaptation to the model; rigid as metal in its normal state, it is truly one of the strongest temporary plates. Does not crawl or soften in the mouth. Can be trimmed with scissors when warmed or with a file when hardened.

Uppers and lowers 17 gage. Also in boxes of 8 Rectangular Sheets, $3\frac{1}{4}" \times 2\frac{1}{2}"$, 14 gage.

Twenty Speakers Engaged to Address the Institute of War Medicine and Surgery for Dentists

The last issue of THE FORTNIGHTLY REVIEW carried a preliminary announcement of the four-day INSTITUTE OF WAR MEDICINE AND SURGERY FOR DENTISTS to be held October 26, 27, 28, and 29, 1942 in the John B. Murphy Memorial Hall of the American College of Surgeons, 50 East Erie Street, Chicago.

To date the following twenty speakers have accepted invitations to address the Institute. The only formal assurances not yet received are from speakers on the subjects of aviation medicine and tropical medicine. These will be announced in the next issue.

KURT H. THOMA (Harvard University): *Traumatic Surgery of the Jaws.*

ARTHUR H. BULBULIAN (The Mayo Clinic): *Prosthetic Facial Reconstruction.*

JOHN JACOB POSNER (New York): *Local Anesthesia under War Conditions.*

CAREL VAN DER HEIDE (Chicago, The Committee on War Neuroses): *Military Psychiatry.*

GLENN WILLHELMY (Kansas City): *The Construction of Aviation Splints.*

A. HARRY ARCHER (University of Pittsburgh): *General Anesthesia under War Conditions.*

PERCY C. LOWERY (Detroit, Committee on Surgery, National Research Council): *The Use of Acrylics in the Construction of Splints and in Maxillo-facial Prosthesis.*

W. H. SEBRELL (The National Institute

of Health, Washington, D. C.): *Nutrition in Wartime.*

HARRY A. OBERHELMAN (Chicago, Professor and Head of Department of Surgery, Loyola University School of Medicine): *The Principles of Traumatic Surgery.*

NORTHWESTERN UNIVERSITY GROUP:

FRED D. FAGG, Ph.D. (Vice-President and Dean of Faculties): *Presiding.*

G. DONALD HUDSON, Ph.D.: *Geography of the Battle Areas.*

WILLIAM E. POWERS, Ph.D.: *Weather Conditions in Zones of Combat.*

TRACY E. STREVEY, Ph.D.: *Cultural Patterns of Our Enemies.*

MILITARY LECTURERS:

COLONEL ARNETT MATTHEWS, D.C., U. S. Army: *The Training of Medical Department Officers of the Army.*

CAPTAIN J. A. TARTRE, D.C., U. S. Navy: *The Training of Medical Department Officers of the Navy.*

MAJOR KENNETH COFIELD, D.C., U. S. Army: *Military Customs and Courtesies.*

COMMANDER FRED F. MOLT, D.C., U. S. Navy: *Naval Customs, Traditions and Usage.*

LIEUTENANT COLONEL R. F. OLMSTED, M.C., U. S. Army: *The Recruitment of Dental Officers.*

MAJOR W. H. WEIR, S.C., U. S. Army: *Military Sanitation.*

(Continued on page 26)

NEWS AND ANNOUNCEMENTS

PLAN FOR HOSPITAL CARE

One person in every five families in the Chicago area will require hospital care this year. None of them knows now when sickness or accident will make this necessary, but nearly 800 members of the Chicago Dental Society have protected themselves in the most effective way possible against the financial burden that a hospital bill frequently causes.

These persons have enrolled in Plan for Hospital Care, the non-profit community service organization sponsored by the approved hospitals of Chicago and vicinity. More than 420,000 persons in more than 3,500 firms and organizations in Chicago and vicinity are members of the Plan, which has paid hospital bills totaling more than five million dollars. The Plan has been in effect for the society since May 5, 1939. Members not already enrolled have an opportunity to join before October 5. Present subscribers do not need to reapply.

Plan benefits include 21 days of hospital care each year for the subscriber and each of his family members in one or several of the 82 Plan hospitals for one or several illnesses, room and board, general nursing service, dressings and ordinary medications, anesthetics and anesthesia service by an employee of the hospital, and emergency hospital service to accident victims. After members are enrolled a year at the family rate, maternity service is available. The Plan also makes a liberal daily allowance for hospital care anywhere in the United States and Canada outside the Chicago area.

Membership fees each month are \$.80 for a single subscriber, \$1.50 for subscriber and one family member, and \$2.00 for subscriber and two or more family members. Subscribers may enroll their wives or husbands and any number of unmarried children under nineteen years of age.

Of the five million dollars in benefits provided by the Plan, members of the Chicago Dental Society and their families have received more than \$30,000.

TICKETS FOR CARTWRIGHT DINNER STILL AVAILABLE

Those planning to attend the testimonial dinner in honor of Dr. Glenn E. Cartwright, immediate Past President of the Chicago Dental Society, are urged to purchase their tickets promptly, according to an announcement issued by the Chairman, Dr. Thad Olechowski. The event will be held Wednesday evening, September 30, at the Palmer House and tickets are \$5.25 each. Dr. Olechowski will be glad to fill mail or telephone orders. He is located at 4213 West Division Street, Telephone Spaulding 0422.

BRANCH MEETINGS TO BE HELD IN OCTOBER

October 6 — Kenwood-Hyde Park Branch, 6:30 p.m. at the Del Prado Hotel.

October 9—Northwest Branch, 6:30 p.m. at Patras Restaurant, North Avenue at the corner of Milwaukee and Damen.

October 13—West Side Branch, 7:00 p.m. at the Midwest Athletic Club, Hamlin Avenue and Madison Street.

WEST SIDE BRANCH COMPLETES FIRST AID COURSE

Thirty-nine members of the West Side Branch completed the Standard and Advanced courses in First Aid presented by the Red Cross.

THREE ARRESTS FOR VIOLATING DENTAL LAW

A laboratory technician named K.

(Continued on page 26)

Dr. Tylman to Lecture in South America

Appointed Official Representative of the American Dental Association

Dr. Stanley D. Tylman, Professor of Crown and Bridge Prosthesis at the University of Illinois, and a former president of the Chicago Dental Society, leaves September 16 on an extended tour of Central and South America. He is making the trip primarily at the invitation of the American Dental Society of the Argentine Republic and the Odontological Society of Argentina. Dr. Tylman will give a series of lectures and clinical

Marcos University, which is the oldest University in the Western Hemisphere.

Since the Argentina invitation was received, Dr. Daniel F. Lynch, Chairman of the Pan American Committee of the American Dental Association, has contacted all the South American countries arranging the details of Dr. Tylman's appearance before their various dental societies.

The House of Delegates of the Ameri-

and laboratory courses at Buenos Aires. In addition, he will give clinics and lectures en route to representative national dental associations at the following places: Mexico City; Guatemala City; Balboa, Canal Zone; Cali, Colombia; Lima, Peru; Santiago, Chile; Montevideo, Uruguay; Rio de Janeiro, Brazil; Caracas, Venezuela and Havana, Cuba. He will also speak before the dental faculties and students in Mexico, Peru, Chile, Argentina, Brazil, Venezuela and Cuba. At Lima, Peru, he will lecture at San

can Dental Association at its recent meeting in St. Louis empowered President J. Ben Robinson to appoint Dr. Tylman as the official representative of the American Dental Association in his itinerary through South America.

The entire trip will be made by Pan American Airways. Dr. Tylman also will spend time at Port of Spain, Trinidad; Port-au-Prince, Haiti; Antilla, Cuba; Miami and Washington, D. C. He will make a report of his trip in THE FORT-NIGHTLY REVIEW upon his return.

QUOTATIONS AND ABSTRACTS

Toxicity of Lucitone and Vernonite:—To the Editor:—A patient who is a dental technician works with Lucitone (methyl methacrylate resin, Du Pont) and Vernonite (acrylic resin Monosal, Rohm & Haas Company, Philadelphia). These are inflammable compounds and volatile. I understand that cases of dermatitis have occurred with their use, and the manufacturers advise avoiding inhaling an excessive amount. Do you have any information concerning the toxic properties of these chemicals?

A. R. Twiss, M.D., Oakland, Calif.

ANSWER.—More is known about Lucitone, the methyl methacrylate, than the Vernonite modification, although both are believed to be esters of acrylic acid. Using Rohm and Haas's methacrylate products, Deichmann (*Toxicity of Methyl, Ethyl and N-Butyl Methacrylate, J. Indust. Hyg. & Toxicol.* 23:343 [Sept.] 1941) has presented well defined experimental data on a series of these compounds. Through oral administrations, cutaneous applications, subcutaneous injections and vapor inhalations, these materials were tested, leading to evidences of pathologic effects. The low volatility of some methacrylates are unfavorable to the duplication of some results under actual industrial conditions. High concentrations led to accelerated respirations, motor weakness, dyspnea, diminished reflexes, increased defecation and urination. In such animals as died, death occurred in coma as a result of respiratory failure. In case the introduction of these methacrylates was by the inhalation route, local irritation of the mucous membranes occurred, in addition to the aforementioned features. Cutaneous application produced local but temporary irritation, and the possibility is that cutaneous absorption may take place. The urine of certain animals showed hemoglobin. In some animals the blood porphyrin is high. The respiratory tract is, however, the site of the severest pathologic changes. From oral administration, corrosion of the wall of the stomach followed. Nineteen mg. of methyl methacrylate per liter of air killed all animals within five hours. Subcutaneous introduction, although leading to fatal poisoning, required larger quantities than in the case of oral administration. The inference is that methacrylates may be regarded as toxic agents at least under some circumstances. The possibility exists that the prolonged absorption of small quantities may lead to the production of porphyrins which through photo action may lead to dermatitis or other physiologic abnormalities. More extensive information may be found in Frederick, D. S.: *Acrylic Resins, Modern Plastics* 16:16, 1938.

J.A.M.A., 118:1169 (March) 1942.

Sugar in the Diet:—To the Editor:—Now it can be told! Today, when we are confronted by the inestimable nutritional boon of sugar restriction, cannot those who have the health of the nation in keeping, those who have pointed out that some forty million people in this country are not properly nourished, make it plain to the public as a whole that a large role in this deficit of minerals and vitamins is due to the excessive consumption of sugar—refined sugar which supplies energy without any other nutritive assets? The public should be brought to understand that sugar as such is no necessity, that the energy can better be derived from foods that carry other essential nutrients. Even the youngest artificially fed infants today are usually provided with extra carbohydrate in the form of corn syrup.

All those concerned with nutrition have long felt that the excessive consumption of sugar in this country is detrimental to the public health. Whether or not this affects the prevalence and severity of diabetes or the early decay of teeth or other specific disease, the mere fact that almost a quarter of the caloric intake of the nation (and will this estimate be greatly changed if Dr. John Rice's recent demonstration of the waste of 2,500,000 pounds daily in New York City proves true for the country as a whole?) is in the form of sugar makes a sufficiency of B vitamins almost impossible. Numerous reports have demonstrated the paucity of these essential nutrients in the diet in both the United States and Canada. The attempt in peace time to change such entrenched dietary habits has seemed to most workers practically hopeless, especially in view of the tremendous commercial interests concerned. Even the enrichment of refined sugar has been advocated.

But, now, in our peril, faced with the need of sugar for other purposes and of man power in all directions, cannot the nation benefit from an even greater restriction than is now contemplated? Cannot the government further the diversion of sugar crops to other more beneficial ones and find a better use for the men employed in the commercial manufacture and distribution of sweets? Cannot the numerous newspaper food columns make known the superiority of fresh and dried fruits in place of pies, doughnuts, candies, gum and sweetened canned fruits? Cannot the numerous society and moving picture women who want to contribute to the war effort make such desserts fashionable? And may we not plan to keep these benefits in peace time? May we not hope that some of the war time habits develop into permanent tastes if their

QUOTATIONS AND ABSTRACTS

benefit to the public health is clearly understood? Today, in time of war, every man, woman and child should know that in the restriction of sugar he is not just putting up with an inconvenience, such as foregoing silk stockings or new ice boxes, but is positively contributing to his own health and thus to the strength of the nation. *J.A.M.A.*, 118:1158 (March) 1942.

Chemical Elements:—Eighty-eight chemical elements have been isolated. Their separation by chemical means is sometimes easy, sometimes very difficult, and the best available tests differ greatly in sensitivity. Spectroscopic analysis provides a test for all constituents at once; but these tests too are unequally sensitive. Fortunately the two methods supplement each other. The composition of the earth's crust—above an arbitrary depth, such as ten miles—is well known. Oxygen is the most abundant element, whether by weight or by number of atoms. Silicon is next and then aluminum, iron, magnesium, calcium, sodium and potassium. These eight elements account for 98 per cent of the whole mass.—Russell, Henry N.: *The Cosmical Abundance of the Elements*, *Nature*, Nov. 29, 1941. *J.A.M.A.*, 118:453 (Feb. 7) 1942.

Appropriate and Satisfactory Recreation:—The advent of war has suddenly thrown on the people of the United States a responsibility for greatly increased work. Leisure time, some of it in the enforced leisure of unemployment, has vastly diminished. The planning of appropriate and satisfactory recreation seems all the more necessary at this moment. If we must have play to complete our lives and if the time in which we may play is reduced, it is obvious that we must learn and plan to play better while we are playing. It was wise of those counselors on civilian morale to include among the earliest exhortations which they addressed to the American public the advice that we should work as hard as we can but hold on to our hobbies. For such advice is, in the light of psychiatric experience, sound and sensible. If the proper direction and encouragement of play can be therapeutically useful it can also be prophylactically useful. If it is good for sick people it is even better for well people. We are all subject and liable to the disease of disturbed morale—demoralization—and one of the best antidotes against this is to be found in recreation.—Menninger, Karl, and Menninger, Jeanetta Lyle: *Recreation for Morale*, *Bull. Menninger Clin.* 6:97 (May) 1942. *J.A.M.A.*, 119:943 (July 18) 1942.

Health of the Army:—A new low death rate per thousand strength for the U. S. Army

was established in 1940. According to the annual report of the surgeon general, there were 257,136 admissions to sick report from all causes, giving an annual rate per thousand of 763.3, an increase of 44 per cent over that for 1939, which was the lowest on record. Diseases of the respiratory system were responsible for the largest number of admissions. In second place were infectious diseases and conditions of the digestive system. There were 267 admissions with one hundred and eight deaths due to aircraft accidents in 1940, and thirty-two deaths from accidental drowning. The admission rate for venereal diseases for the whole army was 42.5 per thousand strength. The number of days lost from duty due to venereal disease was 456,148. The average number of men absent from duty each day from this cause was 1,246. The average length of treatment in hospitals or quarters for all venereal diseases was thirty-two days. The average number of days lost per case for syphilis was twenty-eight, for gonorrhea thirty-five and for other venereal diseases twenty. Gonorrhea continued to lead the causes of noneffectiveness. During the year, 1.39 per cent of the strength of the army was lost by discharge or retirement for physical disability. Dementia praecox was the leading cause for discharge. Manic depressive psychoses also appeared for the first time among the leading causes. Tuberculosis as a leading cause of death reached a new low and is near the bottom of the list. There were 229 deaths attributed to motor vehicle accidents.

During the fiscal year 1941 the average number of men present daily in the Civilian Conservation Corps was 248,926, a reduction of 22,252 from the preceding year. Of the 337,363 admitted to sick report during the year, 316,758 were for disease and 20,612 for injuries. This was the smallest total for injuries in any one year since the inception of the corps in 1933. There were 521 deaths, of which 248 were attributed to injuries and 273 to disease.

On Jan. 2, 1941, the Office of the Surgeon General, except the Army Medical Museum and the Army Medical Library, was moved from War Department Annex Number 1 into a portion of the Social Security Building. *J.A.M.A.*, 119:954 (July 18) 1942.

Storage of Carbohydrate in the Body:—When carbohydrate is absorbed in larger quantity than is required to meet the body's immediate needs for fuel, the surplus normally accumulates as glycogen, which is stored in the liver and the muscles. The amount of carbohydrate which will be stored in the en-

(Continued on page 25)

NEWS OF THE BRANCHES

NORTH SUBURBAN

To the skeptics who pooh-pooh the vacation idea, and to those who through self-denial or for other illogical reasons have deprived themselves of annual interludes of play and pleasure, the following is respectfully dedicated: As the last stars blinked restlessly across the fading canopy of night, dawn mounted swiftly on rungs of stratus clouds which hung poised over the eastern horizon. A distant swan trumpeted a greeting to the coming day, and as the last notes dwindled away life everywhere began to stir. The universe was awakening and so was I for on this day my vacation commenced. The trials and tribulations of yesterday were quickly forgotten for a new dawn of adventure and carefree living which was now beckoning on all sides. New blood coursed through my veins from Mother Nature's transfusion, and thus new life was breathed into the old half-worn out carcass. I now felt like a boy anticipating an overdue date with Isaac Walton, Paul Bunyan, Huckleberry Finn, Tom Sawyer and the Fairy Princess. Communion with the above had been effected; fact and fancy had actually fused to a realistic respite not too remote from deLeon's will-o-the-wisp. Retrospective meditation of priceless hours will be my reward for physical injuries inflicted by the elements and pestifero multitudinae, Amen . . . A letter was received recently from Jim Grier, postmarked "Somewhere in Australia." Jim, you'll recall, is the guy who tried to teach the dentists some inside dope on first aid and for his fruitless effort received as gifts of appreciation a forearm chronometer and a set of quills. He referred to the latter as "his constant companions" and to the former as "time on my hands." He wished to be remembered to everybody. How could anyone forget a grand fellow like Jim? . . . First Lieutenant George Howell recently reported to

Fort Sheridan for duty . . . John McGuire eloquently narrated his vacation experience by the travelogue technique . . . Zenas Shafer bundled the family and trundled to Rice Lake, Wisconsin . . . The Pisces trio—Smothers, Davy, and Bommersheim—are in Canada making contact with that country's finny submersibles . . . The North West Credit Association under the able leadership of Hozzie Law is looking forward to another banner year. The Program Committee is arranging a fine series of meetings . . . Two future dentists have been added to our fast-growing branch; Wally Fanning and Louis Smith are the proud fathers. Our congratulations to the mothers who are seldom mentioned in these columns. —*Frederick T. Barich, Branch Correspondent.*

WEST SUBURBAN

Howard Quigley was among the group of friends who attended the "going into the service party" for Walter Zipprich. Walt is now stationed at Fort Francis Warren in Wyoming . . . Melville J. Hooper has received orders to report on September 4 to Fort Leonard Wood, Missouri . . . We will appreciate hearing from any of the boys in the service, or hearing of their whereabouts . . . Harry Vonder Heydt is progressing very nicely after undergoing a minor operation last week . . . Arno Brett's daughter was operated on for appendicitis and is reported on the road to recovery . . . Paul Swanson is back from his trip to the Canadian border . . . Vernon Hauff just returned from a visit to Denver, Colorado, where he and his old friend the fire chief swapped yarns . . . The B. T. Meehans are out Colorado Springs way . . . Arnold Pins just returned from the same place . . . The R. G. Greenwoods are somewhere in Michigan . . . Mike Lepak is back from his annual trip to Duluth, Minnesota . . . Bill Zimmer

was away, but we don't know where . . . As we were compiling this data we received the sad news of the death of Lieutenant Colonel Edward J. O'Reilly, United States Navy. The words "killed in action" make our hearts heavy for Ed who was truly a gentleman, scholar and friend. The entire branch sends sincere sympathy to Mrs. O'Reilly on the death of her son, who, to our knowledge, is the first member of the West Suburban Branch to die in service.—*Joseph M. Lestina, Branch Correspondent.*

ENGLEWOOD

It all starts out so uneventfully. You receive a card from the secretary notifying you that you have been chosen as an assistant branch correspondent. This inflates your ego for being so "fortunate." Suddenly it dawns on you that the deadline is near for your contribution this month. I guess I will call Joe McMahon, our ex-chief, to find out who are the "Winchells" in this outfit. Joe says, "Call Starshak, Brooks or Wineberg. They generally have some news." Come to think of it today is Wednesday and the newshawks are probably not in their offices. Oh well, let us report what news we have . . . Ed Fox is bragging about his "De-bubblizing Process." That is his name for the daily debelching process he gives his new offspring "Tim O Shenko" Allen Fox . . . Yours truly experienced a surprise party last week, when a patient brought a half gallon of beer up to the office, which was his way of showing his appreciation for a newly placed fixed bridge. Believe it or not . . . Emil Aison has been called to active service as a Lieutenant Colonel in the Army dental corps. He reports at the O'Reilly General Hospital, Springfield, Missouri . . . Lieutenant Bruce A. Spooner left for Camp Carson, Colorado, on July 27. His brother Grant has taken over for the duration . . . After twenty-five years of general practice O. E. Johnson is now limiting his practice to Orthodontia. He has an M.S.D. from Northwestern. At the present time he is enjoying a short vaca-

tion at Cedar Falls, Iowa . . . Gee Gee Berg just returned from a two weeks' vacation at Mackinac Island. He liked it so well that he took a Labor Day week end on the S. S. Alabama up to the same neck of the woods . . . Leon Wineberg is still complaining about his friend who was going to treat a tooth for him. After sealing in the dressing his dental friend remarked, "Leon, I think I broke off a broach in the canal." Leon had the tooth extracted the same day. He now has a lower partial for patient demonstration . . . Well that is the news for this fortnight. If you have any news for the next issue please contact your branch correspondent.—*J. I. Stillerman, Assistant Branch Correspondent.*

KENWOOD-HYDE PARK

First of all your scribe would like to extend a hearty welcome to all the men who recently joined the ranks of the Kenwood-Hyde Park Branch. There are quite a few of them. John Heisler transferred recently from the North Side Branch, and Hubert Mitchell from the West Suburban Branch. The following men are new members: Sidney Aronoff, Joseph Berenbaum, Joseph Comroe, Jr., S. P. Jones, Stanley Korf, Frank Orland, F. R. Powell, Robert Scher and Henry Urbanowicz. We're glad to have you with us, fellows, and hope you will all feel at home with the Kenwood group . . . We've just discovered that Joe Comroe, Jr. is in the army and recently left for Camp Carson, at Colorado Springs, so we'll have to welcome him when he returns . . . Jim Lynch just returned from two weeks at Riverside, Michigan . . . Willard Johnson has been visiting one of our Kenwood members, Hub Mitchell, who is located at St. Elmo, Illinois . . . We just recently had a card from Herb Parker and Mrs. Parker, saying that the hunting and fishing is tops up in Ontario, Canada. They caught a 27½ pound muskie . . . Tom Humble spent the month of August just resting. Smart man, isn't he? . . . Harry Hartley just returned from a second fishing trip, this

time at Pickerel Lake, Wisconsin . . . Walt Scanlan and Mrs. Scanlan have been vacationing at a dude ranch in North Carolina . . . Fishing seems to be the favorite sport of a good many of our Kenwood members. Jack Flanagan has just returned from Land O' Lakes, and indicates that the fishing was fine up there, too . . . The first meeting of the season of the Kenwood-Hyde Park Branch will be Tuesday, October 6, at the Del Prado Hotel. Dinner will be served at 6:30. Be sure to get in touch with the dinner chairman immediately, so that he can take care of the arrangements as quickly as possible. Let's see you all out to give our new members a real hand. Let's show them what real fellowship is.—*Howard E. Strange, Branch Correspondent.*

WEST SIDE

Harvest is beginning and the year is at flood tide. Every bud and blossom of spring and summer has attained the purpose of its life in fruition. The fields are gloriously golden and America is radiant with beauty . . . This time of the year makes me think of the beginning of the monthly meetings of the West Side Branch of the Chicago Dental Society. The first meeting will be held on Tuesday, October 13, 1942, at the Midwest Athletic Club, Hamlin and Madison Streets. Dinner will be served at exactly 7:00 P.M. . . . William R. Gubbins of the Program Committee is working very hard to make this an interesting evening. The Red Cross First Aid course is finished, so now I hear that the Dental Forum will hold its meeting soon . . . Lieutenant A. L. Vlazny left on August 26, for Camp Berkeley, Texas . . . Ben Gorsky has finally received his First Lieutenant's Commission and is waiting for placement . . . William Walden has been keeping in touch with his draft board for a verdict regarding his future plans . . . Al Turek is getting ready to join the Army . . . William B. Carrane has received his First Lieutenant's Commission in the Army Dental Corps . . . Gerard J. Casey would appreciate some

letters and news from his colleagues and friends of the West Side Branch. His address is—1st Lieutenant G. J. Casey, D.C., 51st Engineers Regiment, Camp Bowie, Brownwood, Texas . . . George Vogt had to take an unexpected trip to Albion, Nebraska, because of the death of his oldest brother. We all extend our sympathy . . . B. T. Apke arrived at Toledo, Ohio, via United Air Lines. He is taking a course in anesthesia and surgery at the Mercy Hospital in Toledo and will stay there for several months . . . Maurice Berman is vacationing at present in Jackson Harbor, Washington Island, Wisconsin . . . H. C. Lee is vacationing this past month at Berrien Springs, Michigan . . . William R. Gubbins has finally decided to take his vacation, and is now somewhere in Michigan . . . F. E. Porath is driving down to Denver, Colorado, for his vacation . . . Louis Kramer has acquired a substantial suntan after spending two weeks in South Haven . . . V. L. Lee is leaving for Crosby, South Dakota, on September 25. He will spend an entire month there hunting pheasant . . . It has been reported to me that C. V. Anderson is quitting his Chicago practice for an office and practice in Seattle, Washington . . . George W. Blaha is spending his vacation at home—just resting . . . Jesse Owen is going to vacation in Big Sand Lake, Minnesota, which is just 150 miles beyond Minneapolis . . . Dr. Louis Vannell is in Eagle River, Wisconsin, vacationing and getting relief from hay fever . . . The stork was last seen hovering over the home of J. B. Gomberg . . . Joseph A. Josh expects an addition to his family some time this month . . . Michael DeRose, Assistant Correspondent will write the next column. His 'phone number is NEVada 8060. Please forward all news to him.—*Casimir C. Dumanowski, Assistant Branch Correspondent.*

NORTH SIDE

This week's column starts off with the departure of the army boys . . . M. J. Friedman left August 25 for Camp

Barkeley, Texas, to join the 30th Medical Regiment . . . Herbert Wesselhoeft is now doing duty at Camp Grant . . . The vacation department brings news of that Adonis of the North side, our treasurer, Basil Cupis, who is escaping the hay fever by sojourning at Algoma Mills, Ontario, Canada. His companion at this sylvan retreat is Lieutenant Allen Peszynski of the West Side branch . . . The health and welfare department advises of the recovery of Edward H. Ashley after a long siege with a streptococcus infection . . . If you have any information regarding our members in service will you please transmit it to me or to the Chicago Dental Society at 30 North Michigan Avenue. This information is needed so that the Fortnightly Review may be forwarded to them . . . Remember what the fatalists always said: "You're safe, you won't go until your number comes up." The draft board seems to have taken up where the fatalists left off . . . Trend of the times—All the new WAAC jokes . . . J. C. Grant fell and broke his right leg while playing golf about four weeks ago. He says it happened before he reached the 19th hole, and suggests those who complete the course in war surgery look him up . . . See you next issue. Meanwhile don't forget to send the information about our dental friends in the armed forces.—*Orrin G. Baumgarth, Branch Correspondent.*

NORTHWEST

"Would you be good enough to explain in your next column in the Fortnightly Review how you continue to have an overhanging sign in direct violation of the law. This is especially interesting to us because you are always harping about ethics and the great value of C.D.S. membership, which frankly, most of us greatly doubt; and if I remember rightly, you wailed loud and long about the slowness of others in removing their signs." No SIGNATURE . . . The above is a copy of a post card received by your correspondent during the past week. Now, dear reader, what would you do on receiving a similar

little billet doux without a signature? Your correspondent took the opportunity of using it as an inquiring reporter's question, and got the following replies: Fred Nannestad—"People without the necessary intestinal fortitude to sign things shouldn't write them." Art Peterson—"That guy isn't very proud of his editorial 'us' or he would be glad to write his name as well." Harry Holm—"Let him, if he is ever able to save up that much, take a trip to California and see what organized dentistry is worth." Henry Boris—"My, my, do people still do those things? How bad was the handwriting?" Joe Zielinski—"According to an interpretation of the law by the Board of Directors, the group of shingles acts as a building directory." And so my dear Anonymous (or should we use the harsh word gutless) you can see how the reading public of the Fortnightly feels about unsigned cards and editorial "us" and "we" when you are speaking only for yourself. Cream puffs at forty paces would be too sweet an end for anonymous writers . . . Harry Harnick reports back from a prospecting and educational trip to Camp Robinson. Listening to Harry tell the story, one is tempted to give up practice at once and head for one of the base hospitals. Since his daughter has received another scholarship at Chicago, Harry felt that he could afford the trip . . . The Klee Building has acquired two new tenants, B. E. Stark and William Roth . . . Now would be a good time to mark your appointment book for the first Northwest meeting of the coming year to be held October 9. Make note of the new location for our meeting place—Patras Restaurant on North Avenue at the corner of Milwaukee and Damen Avenues. The elevated station is just around the corner, and with the excellent street car transportation, Iver Oveson feels that tire conservation should not affect our attendance this year. The program is still being formulated, but the chairman, Henry Boris, promises that this year he will try to see that "Bread and Butter" (Continued on page 27)

Contributors

Manuscripts should be typewritten, double spaced, and the original copy should be submitted. Every effort will be made to return unused manuscript, if request is made, but no responsibility can be accepted for failure to do so. Anonymous communications will receive no consideration whatever.

Manuscripts and news items of interest to the membership of the Society are solicited.

Forms close on the fifth and twentieth of each month. The early submission of material will insure more consideration for publication.

QUOTATIONS AND ABSTRACTS

(Continued from page 9)

tire body after rest and liberal feeding is estimated at 300 to 400 grams. Thus the total amount of carbohydrate which can be stored as such in the body is no more than is frequently taken in one day's food. When the body has no tendency to increase its store of glycogen, the further surplus of carbohydrates tends to be converted into fat.—Sherman, Henry C.: *Chemistry of Food and Nutrition*, New York, Macmillan Company, 1941. Via J.A.M.A., 119:792 (July 4) 1942.

NEWS AND ANNOUNCEMENTS

(Continued from page 6)

Horvat identified with the California Dental Laboratory, 4827½ West Chicago Avenue, has been arrested for practicing dentistry without a license on complaint of the Department of Registration and Education. He was scheduled to go to trial in County Court on September 9.

Other recent arrests on the same charge include Stanley Jay of the Stanley Dental Laboratory, 3129 Logan Boulevard and R. J. Rolter, 5448 New England Avenue. In both cases cash bonds of \$500 or \$1,000 and Real Estate bonds were fixed and trial date set for September 22 in the County Court. The Department of Education and Registration was the complainant in these cases as well.

CONFIDENCE MAN VICTIMIZING DENTISTS; BE ON GUARD

It is reported that a man giving the name of Kaplan is working a confidence game among dentists by passing as a patient of a physician in the suite who is conveniently absent at the time, and then asking to have a rather large bill changed. To establish himself further he makes an appointment for a member of his family. With this as a "build-up" he does some sleight of hand with the change, as a result of which the dentist

becomes poorer by \$5.00 or \$10.00. Of course the physician doesn't know the man at all. Any dentist so approached is urged to turn the man over to the police. He is reported to be about 38 years of age, dark of complexion with a black mustache, stands about five feet, ten inches in height and weighs approximately 175 pounds.

CHICAGO DENTAL ASSISTANTS ASSOCIATION FIRST MEETING

The Chicago Dental Assistants Association will resume activities for 1942-43 with the Monthly Meeting on Thursday, September 17 at 8:00 p.m. Because of the hotel situation at present our first meeting will be held in Room 2101 of the Pittsfield Building, 55 E. Washington Street. At this time plans will be made in regard to a definite meeting room and date for future meetings.

Program Chairman Gladys Naughton will present a paper titled "Don'ts for the Dental Assistant." Mr. Lane of the Plan for Hospital Care will be with us to again explain the benefits of the plan. An announcement will be made in regard to dental assistants participating in the work of the Service Men's Center. Let's all cooperate with our new officers by a record attendance at the first meeting of the season.—Grace A. Olsen, *Publicity Chairman*.

INSTITUTE OF WAR MEDICINE

(Continued from Page 5)

SPECIAL GUEST SPEAKER:

J. BEN ROBINSON (Baltimore, President of the American Dental Association): *The Role of the Dental Profession in the War Effort.*

Reservations for the course are being

made at a rapid rate. The lecture hall has a seating capacity of only 700. One hundred of these seats have already been reserved for dental officers of the Army and Navy.

To avoid disappointment dentists are urged to act promptly in making reservations.

EDWARD J. RYAN, *Chairman*.

Please enroll my name in the Institute of War Medicine and Surgery for Dentists under the auspices of The Chicago Dental Society. My check for \$20.00 in payment of the Registration and Tuition Fee is enclosed.

Name _____

Address _____

Please make checks payable to The Chicago Dental Society and mail to 30 North Michigan Avenue, Chicago. A Registration Admittance Card will be sent to registrants.

VITALLIUM

Let's Look at the Record!

This is the "Age of Alloys" — an era in which superior prosthetic alloys are supplanting traditional metals.

In keeping with the increased knowledge of dental metallurgy, it was inevitable that, in the year 1932, prosthetic dentistry should accept and adopt *Vitallium*, an improved casting alloy for full and partial dentures.

In simplest terms, Vitallium, the only true cobalt-chromium alloy used in dentistry, was clearly and unmistakably a better metal for one-piece castings.

Now, in 1942, Vitallium commemorates its 10th Anniversary as Dentistry's leading alloy for full and partial restorations.

What's your own batting average, Doctor?

YOU know what a favorite willow and high-running confidence can do for a ball player's batting average. Well, what's your own average, Doctor? Is every operation a clean hit—patient comfortable . . . satisfied . . . certain of your skill?

Many dentists today know that routine use of Novocain with Cobefrin or Novocain-Pontocaine-Cobefrin to prevent pain measurably increases their percentage of thoroughly satisfactory appointments—eases tension for them and patients alike—adds confidence in every procedure.

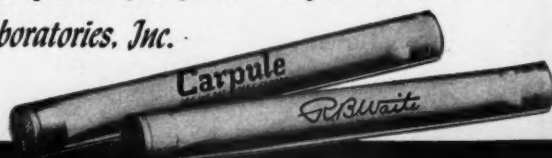

If you have not already done so, try both these trustworthy local anesthetics soon and choose your own favorite. Both induce profound anesthesia smoothly. Both offer the advantage of wide tolerance. Novocain-Pontocaine-Cobefrin merely extends the effective operating anesthesia over a longer period. Specify both with your next order.

DEELITE

These four factors of routine contribute importantly to your profit and to patient satisfaction.

- A Preparation of abutments
- B Seating the restoration
- C Subsequent adjustments

Whether you use gold or substitute material there is no difference in "A".

But consider the precious time saved for you by the use of gold in "B" and "C" . . . the extra steps you avoid, the shorter time in the chair for your patients, the elimination of repeated visits, and the added professional prestige of placing a case you can satisfactorily adjust in your own office.

D

For assured further saving of time, you may rely upon the perfect balance and uniform quality of all Gold alloys by Dee & Co. . . . wherever and whenever specified.
